Subject:PL/2016/02754/MAJFOT - MSA J4 Box Trees Farm - Highways England Response

Attachments:AECOM Response to Highways England Comments 18-10-2018.pdf

Dear Lawrence

Please find attached a copy of our response to the latest set of comments from Highways England plus a number of technical notes that have been appended to the letter as follows:

- Revised merge/diverge assessments in accordance with TD 22/06
- A Technical Note setting out the impact of the MSA on weaving over the section of the M42 between junctions 3 and 6
- A revised Design Strategy Record (DSR) in response to comments from Highways England
- A signage strategy focusing on signage at Junction 4

In addition, I can advise that:

- A Technical Note setting out the impact of the proposed highway works on the existing culvert beneath the M42 southbound off-slip is currently being prepared and will be forwarded separately.
- We are also undertaking a new structural assessment of the existing j4 overbridge including an assessment of the deck, substructure and foundations; together with a new AIP for the proposed new stand-alone bridge. Again, this will be forwarded separately.

I trust this is in order.

Regards

Nick Roberts
